6. Build Interactive Clickable Prototype
+ Add
Description
Edit
User Story: As a designer, I want an interactive, clickable prototype so that we can test the user flow before writing any code.
Subtask
Hide checked items
Delete
100%
Link wireframes into a clickable prototype flow @mresult456
Add navigation between onboarding, reporting and alarm screens @mashifanezanele
Add micro-interactions for button states and alerts @naledingobeni
Prepare prototype for usability testing session @mjayezizanele
Document prototype flow in a shared design file @xiluvamakhuvele
